Wow – what an event, netball in Vegas!!!

The CallidusCloud U.S. Open Netball Championships is a truly international event with teams representing seven nations participating. It is a great opportunity for players to showcase their talent and athletic prowess and test their team strategies. The international flavour of this event is testimony to the vision and hard work of Netball America who had the foresight to spread the word about one of the best kept secrets in the sporting world - Netball!

Without a doubt, netball is one of the fastest and most dynamic team sports and until the last few years has been one of the best kept secrets in America.

I have been so impressed with the way Netball America have connected the game of netball to the local community and used it as a vehicle to address many of the social issues that constantly challenge society on a daily basis.

Netball teaches great skills– hand eye coordination, agility, balance, space awareness and speed plus players learn the importance of teamwork and staying fit and healthy.

But the most important thing of all it is fun to play and I have no doubt there will be many celebrations when the final whistle blows.

Enjoy.
