

To Netball America, Members, Friends and Athletes

I want to wish you all a successful and safe National Championships. It's very exciting and you should all be proud of having a record number of States participating in this event.

As a member of the England Netball Team I cannot tell you how exciting it is to finally see some traction with Netball in the USA. The work Netball America is doing to get netball in at the grass roots level is critical if American netball has any hope of participating on the international netball stage. I have been a big supporter of Netball America from the beginning, and it is a real testament to the achievements that have been made in such a short time.

I was lucky enough to have the opportunity to commentate with Olympian gold medalist, Ian Thorpe, for Netball America's first showcase at LA's Staples Center. It was also an amazing experience to be a part of your recent WNBA NY Liberty exhibition and games in New Jersey.

It also gives me great pleasure to be able to work with the Netball America athletes to pass on some of my knowledge and I look forward to continuing this in the future.

Good luck everyone!
